

# Asbestos Awareness

## E-Learning

This course provides delegates with training in how to avoid, find and reduce the risk of exposure to asbestos.

**35** minutes

Online Learning

Institution of Occupational  
Safety and Health

### About the course

Employers have a legal responsibility to ensure that their staff know where asbestos and related materials are likely to be found, how to avoid the risk of exposure and to provide the necessary PPE to keep the worker safe.

This is an awareness course only and does not train delegates to work with any forms of asbestos.

### Available in over 35 languages

Our courses are machine translated\* into a variety of popular International languages, so regardless of location or language preference, we've got you covered. Our machine translated content includes the translation of course transcripts and test questions.

\*Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.

### Who should attend

This training course is designed for delegates who may come into contact with asbestos whilst at work. The course informs delegates of what asbestos is, where it might be found, what it's used for and why it's dangerous.

### Course syllabus

The course modules cover:

- Asbestos Awareness
- Practical Steps.

### Certification

Delegates will receive a HSS printable certificate in Asbestos Awareness upon completion of the course.

This course is approved and accredited by IOSH & IATP & CITB.
