

# IOSH Working Safely®

## Online Learning

Training is delivered in association with Astutis and IOSH.

**7** hours

Online Learning

Institution of Occupational  
Safety and Health

### About the course

IOSH Working Safely® is an essential short course for employees of organisations in any industry sector who need a grounding in health and safety.

The IOSH Working Safely course is a perfect first step into the world of health and safety. The awareness level course introduces you to a foundational understanding of core health and safety topics in the workplace.

It is an international safety certificate based on best practice and provides an awareness of general workplace hazards and focuses on why health and safety is important to the wellbeing of individual workers and those around them.

The IOSH Working Safely course is recognised as an equivalent to a level 1 award in health and safety in a construction environment and is widely accessible.

### Course syllabus

This course is split into four modules:

- Introducing working safely
- Defining hazards and risk
- Identifying common hazards
- Improving safety performance

### Assessment

There is a two-part assessment, consisting of a short 20-minute multiple choice section, and 10-minute hazard spotting exercise. On successful completion of the assessment you will be awarded an IOSH certificate.
