

Legionella Awareness

E-Learning

This E-Learning course provides awareness and prevention of Legionella.

25 minutes

Online Learning

About the course

Around 250 people in the UK are diagnosed with legionnaires disease each year, although this can normally be treated with antibiotics, it can lead to long term health problems and even death. This course covers legionella awareness and prevention for delegates.

Available in 35 languages. Machine translated* content is included and includes navigation, transcripts and test questions.

*Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.

Who should attend

This course is designed to help delegates understand the risks of exposure to legionella bacteria. Additionally, this course is useful for those who are responsible for protecting an organisation from this kind of bacterial contamination.

Course syllabus

The course modules cover:

- Legionella Bacteria
- Preventing an Outbreak

Certification

Delegates will receive a HSS printable certificate in Legionella Awareness upon completion of the course.
