

Lifting Operations and Lifting Equipment Regulations 1998

E-Learning

This E-Learning course is designed with the aim to assist delegates to avoid accidents during lifting operations.

35 minutes

Online Learning

Institution of Occupational
Safety and Health

About the course

This online training aims to teach delegates how they can best avoid accidents during any lifting operations in their workplace. It can cost an organisation up to £250,000 if they do not comply with Lifting Operations and Lifting Equipment Regulations 1998 (LOLER). This course will help the delegate to plan safe lifting operations, select the correct equipment, and show their commitment to current legislation.

Available in 35 languages. Machine translated* content is included and includes navigation, transcripts and test questions.

*Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.

Who should attend

Delegates who work with lifting operations in their workplace.

Course syllabus

The course modules cover:

- What is LOLER?
- Selecting the right equipment
- Location of your equipment
- Planning Lifting Operations
- Maintenance of Lifting Equipment.

Certification

Delegates will receive a HSS printable certificate in LOLER upon completion of the course. This course is approved and accredited by IOSH.
